REFERENCES FROM VIP GUESTS

The national economy today is in a unique phase; the economic strategy and reforms implemented under the leadership of President Ilham Aliyev and the reintegration into Azerbaijan's economy of the territories liberated by the glorious Azerbaijani army led by the Commander-in-Chief through the battlefields of the 44-day Patriotic War have all greatly boosted the demand for advanced infrastructure and construction solutions. At this level, the effective platform created by today's exhibitions can play an exceptional role in shaping the infrastructural landscape of our country and the wider region alike.

Mikayil Jabbarov,
Minister of Economy of
the Republic of Azerbaijan

Held in Azerbaijan, BakuBuild exhibition boosts the role our country plays in the Caspian construction sector in that it highlights innovations and helps build transnational relations and increase cooperation opportunities in this field. The exhibition serves a unique platform for studying innovative approaches, as well as for attracting specialists and company representatives from different countries of the world right at the time when extensive urban planning activities are carried out across our liberated territories.

Anar Guliyev,
Chairman of the State Committee on
Urban Planning and Architecture

In the aftermath of the great Victory gained by our glorious army under the leadership of Commander-in-Chief Ilham Aliyev, the liberated territories see the ongoing comprehensive reconstruction and restoration activities, a situation that calls for cutting-edge infrastructure solutions in line with the latest global standards. In this regard, the innovations showcased at Rebuild Karabakh and BakuBuild, new dimensions and advanced expertise among them, must bring exceptional benefits to our country.

Yusif Abdullayev,
Head of AZPROMO

- DISTRIBUTORS

VISITORS REFERENCES

The company I represent is involved in the oil and gas industry, but we also do a lot of construction and repair work at our sites. This is the reason why I have been attending the BakuBuild exhibition for many years. There are many new companies represented by well-known manufacturers at the exhibition. We held productive meetings with them to familiarize ourselves with several products. The exhibition has once again demonstrated the wide range of opportunities that attract many visitors.

Kyamil Gasimov,
Chief Cost Engineer,
Socar Downstream

We were brought to the BakuBuild exhibition by the desire to establish new business ties with manufacturers and learn about new trends. As usual, the exhibition has made a great impression. And we were especially impressed by the number of stands compared to the post-pandemic years as there were many new companies that we had never come across before.

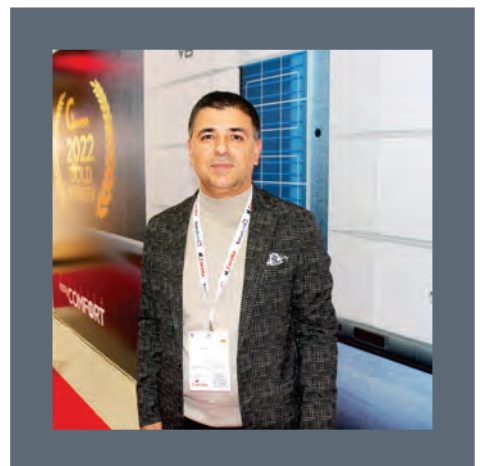

Arzu Aslanbekov,
Director of the Solution Equipment
Tools Company

What I liked most of all at the exhibition in Baku was the combination of construction-related exhibitions at one venue. It is very convenient as it allows us to summarize the opportunities both for construction and further furnishing of living and working space.

Mehmet Keklik,
Director of AURACITY

EXHIBITOR REFERENCES

As debutants at BakuBuild exhibition, we are very pleased to participate in such a large-scale event. We have had a very active year, as we have attended exhibitions in Belarus, Kazakhstan, Kyrgyzstan, and now in Azerbaijan, we can compare projects. Your exhibition gathered a lot of enterprises from different countries. This underlines the excellent work of the organizers. Therefore, we will come back here next year!

Alexander Kucheryavenko,
Sales Specialist,
OJSC Volzhsky Abrasive Plant

This is the very first time BAUNER has taken part in the international BakuBuild exhibition in Azerbaijan. This is already the second day of the event, and I can safely say we do like how it is run! We look forward to finding Azerbaijani and foreign partners here. Besides, one can exchange actual information and professional knowledge with the guests and participants.

Daniyar Chanashov,
Chief Design Engineer, BAUNER

I want to add that it has been over fifteen years that we have been working with the German Pavilion. We intend to keep on doing so; this exhibition has been included in the support program for 2024, so we will be coming over even more often. The event in Azerbaijan is very significant to us, it is a worthy marketing element; here, we early meet businesspeople and visitors as we fully realize how useful can prove the live contacts we have to establish within these three days.

Natalja Winges,
representative of AUMA
